1/ Possible trade errors in reporting or recording exports of corn and grain sorghum seed may have distorted any totals and unit price averages that include those seeds.

Prepared by Tobacco, Cotton and Seeds Division
FAS, USDA, Washington, D. C. 20250. For further
information, call (202) 382-9491.

Exports Total \$71.9 Million

U.S. exports of seeds for planting totaled \$71.9 million for July-November 1981, 23 percent below last year but 4 percent above 1979. Vegetable seeds made up almost half, 44 percent, of total exports and were 6 percent above the same period in 1980. Forage and turf seed exports continued to move slowly, totaling \$19.2 million, 24 percent below a year earlier. As is usual for this period of the year, corn, grain sorghum and soybean exports are at a low level, \$5.8, \$4.0 and \$1.7 million, respectively.

Total shipments to the European Community continued slow, totaling \$16.5 million, 32 percent below last year. Forage seed shipments continue to make up a large portion of the decline. Vegetable seed movement has increased, totaling \$9.2 million, 2 percent above a year earlier.

Mexico continues as the largest market for U.S. seeds during this period. Shipments valued at \$14.6 million or 20 percent of total exports were destined for Mexico. Alfalfa and vegetable seeds continued to make up over three-quarters of seed shipments to Mexico. Movement of U.S. seeds to South American markets was slow, 43 percent below a year earlier.

Shipments to Japan totaled \$8.1 million, 16 percent below last year but maintained Japan's positions as the no. two market. Seed destined for Australia totaled \$3.4 million, an increase of 25 percent over a year earlier.
